

Leonard Elementary School

Our Mission...

The purpose of Leonard Elementary is to make sure all students learn

Our Vision...

In 3-5 years Leonard Elementary will be a place where...

...assessment is ongoing and consistent.

- We will use common, formative, and summative assessments.
- We will analyze and share data with students and parents as needed.
- We will use assessment to guide instruction.

...curriculum is relevant and rigorous.

- We will use research supported best practices.
- We will teach essential skills.
- We will have high expectations for all students.
- We will be GLCE and Standards driven.
- We will differentiate instruction.

...current technology supports and enhances our curriculum.

- We will stay updated on latest technology.
- We will share valuable technological ideas.
- We will encourage students to think globally.

...there is a systematic support system in place.

- We will implement an intervention plan when a child is struggling.
- We will implement an intervention plan when a child is gifted.

...staff members collaborate on a regular basis to ensure student learning.

- We will have regularly scheduled collaboration time built into the school day.
- We will speak candidly, yet respectfully.
- We will use group norms to guide teams.

...school culture is accepting and respectful and holds all staff members accountable for continuous growth.

- We will maintain a safe and secure learning community that includes the development of staff and student relationships.
- We will reject negative practices that are divisive.

Our Goals....

- All students in grades 3-5 will achieve an 80% or better on a grade-level informational reading common assessment by November 2011.
- Students in grades K-5 will meet or exceed their grade-level benchmark on the conventions portion of the spring elementary writing portfolio rubric by June 2010.
- Students in grades K-5 will meet or exceed their grade-level benchmark on the writing process portion of the spring elementary writing portfolio rubric by June 2010.
